Mega III

SPECIFICATIONS SHEET

A robust, lightweight, 3 axis digital head. All 3 axes continue through 360° with recordable functions. Accommodates most 35mm and 16mm cameras with a precise nodal roll axis. The Mega Mount III is one of only two 3 axis heads light enough to make full use of the length and lens height of the telescopic Techno cranes, Strada and on smaller cranes.

FEATURES:

- Precise Digital Control
- Independent Soft-stops For Each Axis
- Course & Fine Positional Indication For Operator
- RCU / CCU Through Sliprings
- Arri 435 To 150 Fps Through System
- Adjustable Wheel Response
- Simple Touch-screen Control
- Record & Playback Facilities
- User-settable Playback Speeds
